

Global System Integrator Program

FactoryTalk Optix Data Platform

Capability Overview

Program Tiers

Bronze

requirements:
One credentialed resource for one capability

Silver

requirements:
Two credentialed resources for minimum of two capabilities

Gold

requirements:
Three credentialed resources for minimum of three capabilities

Platinum

requirements:
Four credentialed resources for minimum of four capabilities

The FactoryTalk Optix Data Platform Capability is intended to promote a System Integrator's expertise in delivering Edge analytics solutions based on the Edge and data management capabilities of the FactoryTalk Optix portfolio of solutions. [Link to product offering](#)

The FactoryTalk Optix Data Platform training is available and posted to the System Integrator learning plan on [Rockwell Automation University](#) (RAU). Please review the [SI Welcome Kit](#) for more information on how to access the RAU, Seismic and OnCourse platforms.

Requirements for Company to receive Capability Badge

- 1. Required number of employees complete the training outlined below.**
FactoryTalk Optix training is required.
- 2. Required number of employees pass the FactoryTalk Optix assessment.**
- 3. Successful completion of one FactoryTalk Optix implementation project.**
Partner must present details of specific project scope to Rockwell for approval.
- 4. Submit one application profile related to the implementation project.**
Template with all required information will be provided.
Currently under development - please check with your RA Partner Manager in the interim.

Electives

In addition to the core FactoryTalk Optix solution, a System Integrator is encouraged to complete training in at least one of the following areas:

- FactoryTalk Remote Access
- FactoryTalk Historian SE
- FactoryTalk DataMosaix

FactoryTalk Optix Training

Training	Platform	Duration
FactoryTalk Optix Commercial Enablement for Partners - Success Kit and HOTT Spot	RAU	6 hours
FactoryTalk Optix Platform - My First Project - Introductory lab that explores the features and functionality of FactoryTalk Optix.	Seismic	3 hours
Configuration Product Training (CPT) - Hands-on technical workshop covering how to configure and deploy a FactoryTalk Optix solution. <i>Please contact your Partner Manager for registration details.</i>	In Person	3 days
Assessment	RAU	1.5 hours
Total		~ 5 days

Electives Training (optional but encouraged)

Training	Platform	Duration
FactoryTalk Historian SE - SFT21662 FactoryTalk Historian Introductory training.	RAU	15 mins
- Level 1 - Capturing Manufacturing Data w/FT Historian Remote lab focused on FactoryTalk Historian SE basics of implementation and configuration.	OnCourse	2 hours
FactoryTalk Remote Access - Training in development. <i>Partner Manager can validate expertise if SI has experience in this area.</i>		
FactoryTalk DataMosaix HOTT Spot - FactoryTalk DataMosaix (Saas) under the Software & Control tab	RAU	1.5 hours

Qualifications and ability to meet program expectations are tracked by the Rockwell Partner Manager and evaluated at the end of each fiscal year (September).
